Roadway Vacation Plat Document Requirements

1. **Vacation Name:** (MAIN STREET VACATION PLAT) at the top of the sheet, followed by a subtitle identifying the section, township and range information along with County and State.
2. **Property Description:** An accurate and clear property (legal) description of the overall boundary of the subdivision with the acreage of the subdivision. All courses in the property (legal) description shall be shown and labeled on the plat drawing, with all bearings having the same direction as called out in the legal description. The only exception being where more than one description is required, going a different direction over the same course. The direction shall then hold for the description having more weight (i.e., the overall boundary) for purposes of the plat. If both record and "as-measured" dimensions are being used, show both and clearly label on the plat drawing. Point of commencement and/or point of beginning shall be clearly labeled on the plat drawing.
3. **Purpose Statement:**
 - a. The purpose of this roadway vacation plat is to (describe).
4. **Surveyor's Statement:** Statement by a registered land surveyor, professionally licensed by the State of Colorado, to the effect that the layout represents a survey made by him and that the monuments thereon actually exist as located and that all dimensional and other details are correct.
5. **Easement Preservation Note:**
 - a. Reserving, however, an easement for the continued use of existing sewer, gas, water and similar pipelines and appurtenances, and for electric, telephone, and similar lines and appurtenances within said street right-of-way.
6. **Layout:** The exact layout including:
 - a. **Streets:** All street rights of way defined by the plat will be clearly distinguishable from other map lines by use of a distinct line type and/or thickness. All lines will be labeled with a complete bearing and distance, and all curves will be labeled with a central angle (delta), radius and arc length. Radial bearings and/or chord bearings will be provided for all nontangent curves. Widths shall be labeled from each right-of-way line normal to the corresponding street center line. All street center lines defined by the plat will be clearly distinguishable from other map lines by use of distinct line type and/or thickness. All lines will be labeled with a complete bearing and distance and all curves will be labeled with a central angle (delta), radius and arc length. Radial bearings and/or chord bearings will be provided for all nontangent curves. The plat shall show the right-of-way lines, widths, locations and street names of all existing and proposed public or private streets:
 - i. Within the proposed subdivision, and
 - ii. Immediately abutting the proposed subdivision, and
 - b. **Readability:** All line annotation and all other text will be easily and clearly readable. No text shall overwrite other text or be overwritten by map lines.
 - c. **Leader Lines:** Use leader lines whenever a dimension is not clearly and unmistakably associated with a given line, line segment or arc.

- d. **Multiple Sheets:** Whenever a plat drawing spans multiple sheets, clear and well labeled match lines and a key map shall be included on each sheet. Labels will be of the nature "See Sheet of ". Duplicate street names, widths, lot numbers, tract names, easement labeling or any such labeling when any feature is shown on multiple sheets.
 - e. **Legend:** Provide a legend which designates all lines and symbols except where called out on plat drawing.
 - f. **Inundation Mark:** The plat shall clearly show the 100-year floodplain line. Reference the appropriate FEMA panel by which the location of this line has been determined.
7. **Adjacent Subdivision:** Names of adjacent platted areas along with the reception and/or plat book and page number shall be shown. If unplatted, so indicate. Existing street rights of way that intersect the subdivision boundary or are adjacent to said boundary lines shall be clearly labeled with the street name, right of way width and appropriate deed or plat recording information wherein the right of way is defined. Show and label all existing lots and blocks that are immediately adjacent to the subdivision boundary.
 8. **Basis Of Bearing:** A clearly defined basis of bearings shall be provided, both verbally and graphically. All monumentation defining said line shall be shown and labeled on the plat drawing. When said line is not common with the subdivision boundary, it shall be accurately tied to the boundary with bearings and distances.
 9. **Monuments:** All monuments used to determine and/or describe a boundary (including basis of bearings, point of beginning and point of commencement) shall be shown and clearly labeled on the plat drawing. Monuments for corners defined by the plat, or otherwise found to be missing in the field, shall be placed and set in accord with the requirements of the State of Colorado.
 10. **Square Footage:** The area in square feet of all lot and tracts sought to be platted.
 11. **Other Information:** All other information required by State law.
